PHYRIS UNIQUE

The well devised
3-phase care concept

PHASE 1: Cleanse

PHASE 2: Activate

PHASE 3: Care

The well devised 3-phase care concept by PHYRIS is superior to conventional care methods. Because PHYRIS offers precisely the right products for every cosmetic need.

Your advantage:

- Perfect customization to your skin type in all three phases.
- Thanks to skin-specific activation: higher tolerance and efficacy.
- Visibly and noticeably improved care results.

PHASE 1

Cleanse

Depending on the skin type and condition, PHYRIS provides wonderful formulations for cleansing, toning and exfoliation.

PHASE 2

Activate

Activation with a SOMI of your choice makes the subsequent care even more effective and even more tolerable.

PHASE 3

Care

After cleansing and activation, the skin is now ready to absorb individual care. The PHYRIS care range is so varied and individual that you can choose precisely the right care product for your skin type and condition.

PHASE 1: Cleanse

Only if the skin is really clean, the subsequent products (Somi and care products) can develop their optimum effect.

CLEANSE ...

... Exfoliation or toning with PHYRIS products is a wellness experience. Choose from wonderful textures in gel form, as milk, cream, tonic or foam. Your beauty therapist can provide you with additional professional products for deep cleansing.

PHASE 3: Care

HYDRO ACTIVE

HIGH-QUALITY MOISTURE CARE FOR ALL SKIN TYPES

Plump and moisturized skin and first aid for fine lines caused by dryness. Whether as a 24-hour cream, concentrate, capsule or mask, these products all have the same goal – to instantly and lastingly moisturize the skin. The new hyaluronic acid formulations replenish the skin's own moisture depots.

HYALURON SENSATION 2-PHASE

Hyaluronic acid and filler hyaluronic acid instantly and noticeably moisturize the skin. The moisture cocktail for a freshness boost.

HYALURON SENSATION CREAM

A special timed release hyaluronic acid provides maximum moisture and maintains this effect for a long period of time. The skin is plump and moisturized.

HYALURON SENSATION SERUM

This moisture concentrate with dual hyaluronic acid moisturizes and reduces fine lines caused by dryness. Thanks to a timed release effect it provides the skin with moisture over the course of several hours.

HYALURON SENSATION CAPS

This intensive care capsule with filler hyaluronic acid instantly smoothens the skin and provides it with moisture in a flash.

HYALURON SENSATION MASK

The star of moisture masks. A dual hyaluronic acid composition provides more volume and firmness and its timed release effect provides lasting moisture.

To make the best use of the talents of this active ingredient, PHYRIS uses **hyaluronic acid** in three different ways:

1. As a moisturizer for the instant effect.
2. In capsules with a timed release effect so that the skin is continuously supplied with moisture.
3. In a microscopic size that uses moisture to pad out and smoothen the skin from within.

HYALURON

AQUA SENSATION GEL

A wonderfully fresh, moisturizing 24-hour care with the lightness of a gel, but the care intensity of a cream.

TIME RELEASE

SIX HIGHLY CONCENTRATED SERUM PRODUCTS
WITH AN INSTANT AND A TIMED RELEASE EFFECT

HYALURON SUPER MOIST

The light, non-oily moisturizing serum uses filler hyaluronic acid to instantly pad out wrinkles and fine lines caused by dryness and provide noticeable relaxation. Timed release hyaluronic acid has a long-term effect and gradually releases its moisture over the course of several hours.

VITAMIN FLASH

Light as a feather serum that instantly invigorates the skin and provides it with a feeling of freshness. A nano-encapsulated vitamin cocktail protects the skin for many hours against free radicals and thus slows down the signs of light-induced skin aging. In the international cosmetics industry, the active ingredient Q10 is well known for improving the cells' absorption of oxygen. Vitamin C firms the connective tissue.

PEPTIDE RELAX-LIFT

The serum shimmers like mother-of-pearl and its anti-aging system instantly reduces mimic lines. Argireline, the precious high-tech peptide with a relaxing effect, externally smoothens existing fine lines and wrinkles. A liposomally encapsulated triple peptide lastingly improves the skin's renewal process.

TIME RELEASE contains the six most successful active ingredients from cosmetic laboratories.

RETINOL ANTI-AGE

The silky shimmering serum provides intensive moisture and instantly smoothens the skin. Extensive, scientific studies prove that retinol in its liposomally encapsulated form lastingly combats the formation of fine lines. The skin's moisture reservoirs are replenished and fine lines caused by dryness are reduced.

COLLAGEN FILLER

The collagen intensive serum instantly tackles the typical changes of mature, tired skin and rapidly results in tighter contours. Collagen, an important component of the connective tissue, lastingly improves the skin's elasticity and firmness and is capable of restructuring the connective tissue.

CERAMIDE REPAIR

The serum/balm repairs the skin's own barrier in a flash and makes the skin feel better. Ceramides and soybean extract prevent moisture loss, the skin's lipid barrier is stabilized and the epidermis is strengthened. A liposomally encapsulated Vitamin B complex acts as a radical trap and thus prevents premature skin aging and environmental stress. The skin's lipid film is lastingly regenerated.

For beauty results with an instant and long-lasting effect:

INSTANT

Concentrated active ingredient – for an instantly visible result
