

### LUXESSE BRIGHT

#### Features and benefits

This light and balancing special care uniquely combines the exclusive anti-aging care substances of the LUXESSE range with balancing anti-pigment active ingredients. For an even skin thanks to its triple effect – in the short, medium and long term.

- The precious extract of Tahiti's South Sea pearls makes the skin silky soft, smoothens the skin's relief and lastingly binds moisture. The skin is given a delicate pearly shimmer and looks balanced and harmonious.
- Matysoft, an extract from the bark of the Enanthia Chloranta tree, possesses mattifying and sebum-regulating properties. The oily shine is significantly reduced and the skin's relief is visibly refined.
- Vitamin C is balancing, protective and firming, whilst Boldo extract lastingly lightens existing pigment spots and thus results in an even complexion.
- Southernwood extract lastingly optimizes the skin structure.

For a refined and even complexion.

**Highlight active ingredients:** South Sea pearl extract, Matysoft, Vitamin C, Boldo extract, Southernwood extract, passionflower oil

#### Suitability

Skin condition			Skin type		
Normal	Sensitive	Stressed with fine lines	Rather oily	Combination skin	Rather dry
***	***	***	***	***	**

\*\*\* "Highly suitable"   \*\* "Very suitable"   \* "Suitable to a certain extent"   No star: "Not suitable"

### LUXESSE BRIGHT

#### Application

**Home use** (45 ml item no. 7893)

In the morning and evening, after cleansing and applying SOMI and eye care, apply a hazelnut-sized amount of LUXESSE BRIGHT to face, neck and décolleté.

**Salon use** (125 ml item no. 38305)

Apply a hazelnut-sized amount of LUXESSE BRIGHT as final care – after SOMI and LUXESSE VISION EYE LIFT – to face, neck and décolleté.

#### Tip

LUXESSE BRIGHT is the ideal care for customers who want to actively combat pigment spots and still benefit from a complete anti-aging care.

LUXESSE BRIGHT can also be ideally combined with fruit acid treatments.
